

Compost Workshop

The backyard ComposTumbler Makes Compost in 4-6 Weeks! If you have a city property or a very small yard, this little composteer was designed just for you. The frame includes two wheels so you can take the compost right to your flower beds and garden areas. You can add to it each day for continuous composting.

The workshop will feature Park naturalist and compost expert Lisa Sanchez who will teach the basics of composting. ComposTumbler a Lancaster owned business will also be on hand to demonstrate the set-up of this easy to use convenient product.

The benefits of composting yard and food waste are:

- Reduce waste sent to landfill.
- Reuse organic materials.
- Recycle natural nutrients.
- Improve soil without chemicals.
- Produce rich humus for plants.
- Save money on chemical fertilizers.
- Reduce clogging of sewage systems

LIVE Green Purpose statement:

Building stronger and healthier communities through environmental projects.

Date: Saturday
September 18

Time: 9am – 11am

Workshop Cost: \$150,
includes a composTumbler
normally priced at \$240

Where: Lancaster
Environmental Center
